About Air Liquide

Air Liquide has been a leading expert in gases, technologies and services for industry and health since 1902, and today we are the world leader serving more than 3 million customers and patients. **Did you know that Air Liquide is already part of your daily life?**

- To **carbonate your drinks** to make them sparkle (CO₂)
- To preserve our environment through the development of **clean energies for transportation** (H₂)
- To protect life in hospitals, by **helping you breathe** and by **relieving your pain** (O₂)
- In your smartphone by producing better and **better nanoelectronics** (N₂)

At Air Liquide, **we promote strong and long-term partnerships** not only with our business partners, but also with our employees whose diversity reflects the diversity of our customers and activities. **Want to know more about us?**
